

THE ARTS ISSUE

What the Arts Mean for Business in NC

Can the arts transform a town's economy? Business North Carolina visits three places in its September issue where painting, pottery and sculpture are more than objects of beauty, they're job creators in once-neglected neighborhoods. The Arts Issue highlights the people and places sustaining the state's cultural pulse.

ARE YOU ONE OF THEM?

Support this important edition in September. Plus, meet a few of the state's most successful artists.
