

PATIENT PICKS

These are the top acute-care hospitals in the state with 50 or more beds based on the percentage of patients who would recommend the hospital to others, as of December 2017. The ranking is based on the Hospital Consumer Assessment of Healthcare Providers and Systems, a survey completed by adult hospital patients between 48 hours and six weeks after discharge. The North Carolina average is 71%, while the national average is 72%.

	HOSPITAL	City	%
